

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

LETTER OF TRANSMITTAL.

STATE OF ILLINOIS,
OFFICE OF SECRETARY OF STATE,
Springfield, November 1, 1918.

To His Excellency, HON. FRANK O. LOWDEN,
Governor of Illinois.

DEAR SIR: In compliance with Section 6, of Chapter 102, Section 5, of Chapter 124, Hurd's 1917 and 1918 Revised Statutes, and Section 21, of Article V, of the Constitution, I have the honor to submit herewith my biennial report as Secretary of State, including the reports of the various departments of the office, and the report of the Illinois State Library. This report covers the biennial period from October 1, 1916, to September 30, 1918.

That part of the report from October 1, 1916, to January 6, 1917, covers the administration of the office by Lewis G. Stevenson, Secretary of State.

Very respectfully,

Louis L. Emmerson.

Secretary of State.

REPORT OF SECRETARY OF STATE—STATE OF ILLINOIS.

SHIPPING DEPARTMENT.

The following exhibit shows the number of State documents and printed matter received and distributed by this department from October 1, 1916, to September 30, 1918:

	Copies received.	Copies distributed.
Reports of State officers, boards, commissioners, institutions, etc., printed and bound.	2,771,593
Reports distributed to members of the General Assembly, State officers, boards, institutions, etc.		187,482
Reports, etc., distributed on request.		2,484,111
Election Registers.	33,700	29,340
Senate bills, amendments, etc., Fiftieth General Assembly. . .	448,250	442,500
House bills, amendments, etc., Fiftieth General Assembly. . .	924,750	918,550
Supreme Court reports.	6,630	6,630
Appellate Court reports.	3,120	3,120
Printed envelopes.	4,520,300	4,520,300
Letter heads and blanks.	15,188,050	15,188,050
Session Laws, 1917.	15,000	12,840
Blue Books, 1917-18.	20,000	17,250

REPORT OF ILLINOIS STATE LIBRARY.

Herewith is submitted the report of the Illinois State Library for the biennial period October 1, 1916, to September 30, 1918:

The total number of bound volumes added to the accession record, was 6,107 and there were several times as many pamphlets and unbound volumes. One-half the accessions were added to the United States Government Depository Set, without cost to the Library, and to the State Document Department by exchange with the various states. Since 1915, when the distribution of laws, journals and reports of Illinois, for exchange purposes, was transferred to the State Library (State Contracts, Hurd's Revised Statutes, 1917, p. 2786-87, chap. 127, sec. 50, 1-2) we have sent annual shipments, transportation prepaid, to universities and libraries or other exchange agencies in various states. Upon their arrival, on exchange account, 252 volumes of State Supreme and Appellate Court Reports were transferred to the Supreme Court Library. We are pleased to report that we have files of State documents, in excellent condition for reference work of the Legislators of the coming session, in return for our exchange material, and hope to purchase all statutes of various states to date, which can not be secured by exchange, before the session convenes.

Proceedings of numerous National and State associations are received through the membership of the Library. We receive 20 daily newspapers and 325 periodicals, many of which have been donated but will be discontinued since the new Government restrictions on periodicals. We have received from the bindery 621 volumes of periodicals, and have sent 116 volumes more to be bound.

Our reference and loan work has more than doubled in the last two years, and we are proud to report that we have received inquiries and sent replies and library material to nearly all localities in Illinois. Whenever possible, we have sent, as a gift, State publications in answer to special requests outside the State, where no library containing our exchange material, could be recommended to satisfy needs of the applicant. However, we have loaned 71 books to 69 borrowers in 19 states.

The work of re-classification and re-cataloging has continued steadily but not rapidly, since we were unable to secure appropriation for extra help. We had hoped to finish before this time, and begin a printed catalog which is needed in our loan work to individuals, schools, organizations, and other libraries over the State. We expect to publish a monthly bulletin to keep the new printed catalog up-to-date, in order to announce the receipt of new books and periodicals, and other library notes of interest.

During the 1917 session of the Legislature, we received an appropriation for shelving but we have been unable to secure a room or additional space in which to install this necessity.

LICENSED TO SELL SECURITIES.
